PRESS RELEASE

Execulink Launches One of the Fastest Internet Speeds in Ontario

Delhi, ON – October 3, 2014 – With the Grand Opening of Execulink Telecom's Delhi Office, the telecommunications service provider announced the release of their 1 Gbps Internet service, giving the town of Delhi one of the fastest Internet speeds available in Ontario.

This substantially faster speed tier is available over Execulink's Fibre Optic network, now available in Delhi. Residents and businesses now have access to Internet speeds over 65x faster than what was previously available in town.

 "Offering reliable Internet service has always been a focus of ours, but speed is becoming increasingly important to our customers," CEO Ian Stevens exclaimed, "We have worked hard to accommodate growing residential and commercial demand for faster speeds by improving our network and infrastructure. We are very happy Execulink is able to provide Delhi with these unprecedented speeds".

Increased Internet speeds are critical for local development & sustainability – whether it's providing seamless video conferencing for corporations and students or improving the quality of video streaming and gaming, this Fibre Optic upgrade will undoubtedly benefit the entire community.

For more information on the Fibre services (including the 1Gbps) or to sign up for Fibre connection in Delhi, please call 519-582-DEAL(3325).

About Execulink

In operation since 1904, Execulink Telecom has evolved from a small independent local telephone company into one of the leading telecommunications providers in Ontario. Through innovation and forward-thinking, we cultivated our local telephony offerings to provide a full-scale suite of telecommunications services including data, internet, television, mobility and advanced voice features. These services are now available to all levels of industry, encompassing 50,000 business, enterprise, government, and residential customers.
