

## Execulink Telecom to Bring Fibre Network to Ingersoll

**(Woodstock, ON) February 18, 2022** – Execulink Telecom announced plans to bring their Fibre services to homes and businesses in the town of Ingersoll, with installations beginning early this summer. Once the project is complete, customers will have access to lightning-fast Internet, crystal-clear TV and reliable Home Phone solutions.

Ian Stevens, President and CEO of Execulink Telecom says, “We are proud to have serviced Ingersoll as an Internet Service Provider for over 25 years and to bring Fibre to this community. Ingersoll’s commitment to progressiveness fits our goal to build connected communities and is another excellent choice for introducing new technological advancements that have become even more in demand in recent years,” said Stevens. “Our mission is to bring residents and business owners the superior telecom experience they deserve and improve the day-to-day lives of the local growing community with our Fibre services.”

Fibre is the delivery of a communications signal over optical fibre. In comparison with other methods of delivery, Fibre’s underground infrastructure is unaffected by weather and allows for reliable TV and Phone services, with some of the fastest Internet speeds in Ontario. Customers can look forward to enjoying blazing-fast Internet speeds up to 1 Gbps.

Construction is scheduled to begin in April to service businesses and homes in the south end of town and the company is working to develop maps and timelines for the rest of the town with installations beginning in the early summer. Additionally, an Ingersoll office is expected to open in the coming months.

Execulink Telecom has been servicing Oxford County for over 100 years and continues to bring Fibre to neighboring communities in the area. Residents are encouraged to call 1-866-765-2282 to sign up. For more information, please visit [fibre.execulink.ca](http://fibre.execulink.ca).

About Execulink Telecom In operation since 1904, Execulink Telecom has evolved from a small independent local telephone company into one of the leading telecommunications providers in Ontario. Through innovation and forward-thinking, we cultivated our local telephony offerings to provide a fullscale suite of telecommunications services including data, internet, television, mobility and advanced voice features. These services are now available to all levels of industry, encompassing 50,000 business, enterprise, government, and residential customers.
